Tenacity of Purpose Preston Goldfarb 2021-09-09 This fascinating sports-oriented memoir tells of Coach Preston Goldfarb's life growing up during the 1950s and 1960s in Birmingham, Alabama, and his journey through life, loves, and soccer to become one of the most celebrated coaches in this country. In 1983 Coach Goldfarb was tasked with transforming a fledgling soccer team into an intercollegiate power force. Along the way, Goldfarb nurtured the program into one of the most respected in the country. From the NAIA to NCAA Divisions I and III, and spanning more than 40 years, Coach Goldfarb's teams have excelled on the field and his players have excelled in the classroom. His teams have won 10 Conference Championships, 7 Conference Tournament Championships, 5 NAIA National Tournament appearances with 3 Final Fours and 1 National Runner-up. He always says, "It's not what you do every day in training to become better, but rather what you do when no one is watching that makes you the best." Family first, then school, then soccer, has always been their motto. Goldfarb was highly involved in international soccer as well. He brought soccer to a new level in the state of Alabama by being the driving force behind the city of Birmingham hosting Olympic soccer for the 1996 Atlanta Summer Games and BSC's campus serving as the Olympic Village. He has also coached the USA Open Men's Team in Australia to a Silver Medal and also in Israel winning the first ever Gold Medal in 2013 for an open Maccabi USA men's soccer in the then 76-year history of the World Maccabiah Games. He repeated the feat in 2017 in winning the Gold Medal in the first ever back to back games. He recently came out of retirement to start coaching a new semi-professional team, FC Birmingham. Soccer players, former players, and anyone interested in soccer and a bit of history are sure to love this inspirational memoir.

A Coach's Life Dean Smith 2000-02-29 Legendary University of North Carolina basketball coach Dean Smith tells the full story of his fabled career, and shares the life lessons taught and learned over forty years of unparalleled success as a coach and mentor. For almost forty years, Dean Smith coached the University of North Carolina men's basketball program with unsurpassed success- on the court and in shaping young men's lives. In his long-awaited memoir, he reflects on the great games, teams, players, strategies, and rivalries that defined his career, and explains the philosophy that guided him. There's a lot more to life than basketball- though some may beg to differ- but there's a lot more to basketball than basketball, and this is a book about basketball filled with wisdom about life. Dean Smith insisted that the fundamentals of good basketball were the fundamentals of character- passion, discipline, focus, selflessness, and responsibility- and he strove to unite his teams in pursuit of those values. To read this book is to understand why Dean Smith changed the lives of the players he coached, from Michael Jordan, who calls him his second father and who never played a single NBA game without wearing a pair of UNC basketball shorts under his uniform, to the last man on the bench of his least talented team. We all wish we had a coach like Dean Smith in our lives, and now we will have that chance.

Mac's Boys Jason Hiner 2006 This is the story of the 1953 Hoosiers, NCAA champions, coached by Branch McCracken and boldly led by star players Bobby Leonard and Don Schlundt. This legendary Indiana University team from the pre-Bob Knight era has begun to fade from memory, but Mac's Boys brings it vividly back to life. One of the Hoosier state's most beloved basketball teams, the 1953 Hoosiers was also one of the best in the history of college hoops. It was a squad that had a great coach, a pair of star players, and teammates who accepted their roles and executed them flawlessly. With Leonard and Schlundt sharing the spotlight, there was the versatile forward Dick Farley (who would have been an All-American had he played on any other team), tenacious rebounder Charlie Kraak, and the hustling, ball-hawking guard Burke Scott. They were the heart of a team that put together one of the greatest hot streaks ever seen in Big Ten basketball, and then capped it off with a run through the NCAA tournament. Mac's Boys recreates the terrific story of Indiana's magical 1952–53 season. For Hoosier fans especially, it will become a treasured tale that illuminates one of the most glorious chapters of Indiana University basketball history.

AiM for Life Mastery Raymond Perras 2011-10-01 This book is the product of the experience gained through many years of working with and leading individuals and teams in their journey to excellence. During that time, I was very fortunate to have managers, supervisors, coaches and mentors who were willing to give me feedback and share their knowledge on how to be the best. I assume that they saw the potential in me and took the time to help me rectify my approach, reduce my inabilities, and improve my focus and skills in putting my talents to good use. It is with that learning in mind that I became a better performer and started recognizing the possibilities for others around me. It did not happen overnight, but in the end I realized that if I could do it, then I could likely help others do it. It's been a long trek. Starting in 1977, I had the privilege to work on TQM (Total Quality Management) with Bill Conway, a man who had worked directly with Edwards W. Deming. That was the start of my journey to reduce wasted effort and maximize result. Over the years, I learned to apply the concepts to assembly lines and other mechanical ventures. However, the real gain came when I understood that the real key to quality was the people who did the work. Since the early 1980s when I reached the supervisory level in my work, I have studied and researched the human factor. I wanted to understand what makes people tick, and consequently, I learned how to raise the efficiency and effectiveness of leadership in the context of teamwork. The real discoveries came in sports where I had the opportunity to watch people dynamics at the speed of light. The knowledge gained there was priceless. Since sports demand quick execution, based on sound preparation, and the time is in seconds as opposed to days and months, the domain was an open lab in observing communication, problem-solving, planning, strategic thinking, leadership, teamwork and the new concept of collective intelligence. But if all that was going to be successful, it required each individual to be motivated, have the skills and knowledge, the capability and competency, and the environment to execute. Throughout my study, I became very aware that mental preparation was the key to performance. The more I observed, and the more I became convinced that there was a way to increase results while reducing stress. For individuals and for teams, that would be the magic ingredient for peak performance every time out. Because once stress is reduced, nearly everyone who has prepared can produce peak performance. The outcome of all these considerations was the crafting of a Peak Performance Program which I started around 1990. It was titled "The AiM Program(TM)". (see details on our website www.repars.ca). During the next 20 plus years, I have perfected the knowledge and honed the approach as a coach through real life application with many teams and individuals in both business and sports. This book summarizes the results of my journey to discover how to create peak performance in a uniform, consistent and repeatable way. The recipe is quite simple, but it demands work, just like any other approach to reach excellence. It is not a silver bullet. It requires effort. But the person who applies the process is guaranteed to transform his/her life and reap the rewards of a disciplined approach to maximize results while reducing their stress. As with all new venture, the success of your journey will start with a vision, an idea of where you want to be. "First comes thought; then organization of that thought, into ideas and plans; then transformation of those plans into reality. The beginning, as you will observe, is in your imagination." - Napoleon Hill: Was a lecturer and author of books on achieving success. We all have the mental capability to create peak

performance. The secret lies in using that capability consciously to reduce wasted energy and increase results. This book provides the reader with a recipe that will create peak performance. The key is to work with your best abilities to gain awareness, internalize it in your bag of tricks, integrate it into your daily routine, and practice until it becomes second nature. Enjoy the ride to the top! Become a peak performer!

A Coach's Life Dan Kellams 2011-09-22 Playing a sport for Coach Les Hipple meant a life of rigor, clean living, modest behavior, and self-denial; even so, many boys were eager to meet these demands for the right to play on one of Hipple's teams. In A Coach's Life, author Dan Kellams narrates the story of one of the greatest high school coaches in Iowa's history, an extraordinary man who lived according to the principles he taught, even when it meant losing a game or a championship—or the job he loved. Kellams, a former Hipple athlete, offers a vivid portrait of a coach who imposed stern discipline on hundreds of boys and, in the process, transformed them into champions. A Coach's Life recalls Hipple's eighty-six full years, focusing on his long career at Marion High School in Iowa, where he led his Indians to championships in football, basketball, track, and cross-country, giving the town its most glorious years in sports. Many young men learned unforgettable life lessons they later passed on to others around the world. Meticulously researched, this biography is set against the backdrop of small-town America during the 1940s and 1950s. Its poignant stories include those of a superb athlete who died on the verge of greatness, a school controversy that turned brother against brother, and a changing society that trapped a great coach in the vise of his own principles.
