[Death Waits in the Dark](#) Mark Edward Langley 2020-08-04 It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Strategic Management Control Fredrik Nilsson 2020-06-30 Strategic management control differs from traditional management control in several important respects. First, it supports both strategy formulation and strategy implementation. Second, it is to a large extent based on non-financial information. Third, it deals with both the long and short term and supports not only tactical, but also strategic and operational decision-making. Fourth, and perhaps most importantly, strategic management control is designed for, and adapted to, each organisation's unique strategies. In this context, the book emphasises the importance of dialogues. The authors argue that it is unwise to assume that decisions taken at the top of the organisation will automatically be executed and obeyed throughout the organisation. Instead, they highlight the importance of dialogue and collaboration, both between hierarchical levels within the organisation and between actors in the network. Such communication is essential to making management control processes both strategic and successful. The book follows a clear structure, from the design of strategies to the everyday evaluation and discussion of performance and results. Though primarily intended for professionals working in strategy and management control at organisations, it will also benefit students and academics interested in strategy and management control.
