

# Europe Since 1945 A Concise History

Recognizing the exaggeration ways to acquire this ebook Europe Since 1945 A Concise History is additionally useful. You have remained in right site to begin getting this info. acquire the Europe Since 1945 A Concise History belong to that we have enough money here and check out the link.

You could buy lead Europe Since 1945 A Concise History or get it as soon as feasible. You could quickly download this Europe Since 1945 A Concise History after getting deal. So, in the same way as you require the ebook swiftly, you can straight get it. Its hence categorically simple and correspondingly fats, isnt it? You have to favor to in this proclaim

A Concise History of Switzerland Clive H. Church 2013-05-23 Despite its position at the heart of Europe and its quintessentially European nature, Switzerland's history is often overlooked within the English-speaking world. This comprehensive and engaging history of Switzerland traces the historical and cultural development of this fascinating but neglected European country from the end of the Dark Ages up to the present. The authors focus on the initial Confederacy of the Middle Ages; the religious divisions which threatened it after 1500 and its surprising survival amongst Europe's monarchies; the turmoil following the French Revolution and conquest, which continued until the Federal Constitution of 1848; the testing of the Swiss nation through the late nineteenth century and then two World Wars and the Depression of the 1930s; and the unparalleled economic and social growth and political success of the post-war era. The book concludes with a discussion of the contemporary challenges, often shared with neighbours, that shape the country today.

History of Europe Rohit Majumdar 2020-08-14 A concise textbook on the history of Europe viewed through the lens of economy, technology, information politics and war. History of Europe helps students, teachers and enthusiasts of history to gain an understanding of the genesis of modern Europe. The book has been structured in an unconventional yet logical manner, keeping in mind the difficulty students face while relating facts and time periods in history. It is segregated into four modules, which bring in multiple angles to provide an all-encompassing perspective of European history along with a parallel understanding of world history, thus establishing a holistic framework of the events. The modules cover Renaissance to pre-Napoleonic era, holocausts to consolidation of global sustainability, Cold War era, and the conflict and culture in European globalization since 1989. Thorough integration maps, illustrations and special vignettes make the textbook interactive, informative and illustrative for students to easily internalize and recollect the major events and their causes and consequences. Key Features: \* A unique learning experience of history through extensive chronological detailing and multiple parallels of events\* Includes forty-one maps, which act as visual guides to the geography of politics, campaigns, battles and expansion of empires\* Commentary sections summarizing the key themes and examining global and comparative developments going beyond the geographic framework\* First-hand notes and commentaries of the First and Second World Wars and eyewitness accounts\* Extensive source citations along with weblinks and suggestions for further reading

The European Economy Since 1945 Barry Eichengreen 2008-07-21 However, this inheritance of economic and social institutions that was the solution until around 1973--when Europe had to switch from growth based on brute-force investment and the acquisition of known technologies to growth based on increased efficiency and innovation--then became the problem.

World War II in Europe Marvin Perry 2012 WORLD WAR II IN EUROPE: A CONCISE HISTORY, International Edition offers readers an engaging, clear, and

comprehensive overview of the war that includes all of the key concepts, recent scholarship, and, where applicable, conflicting interpretations, while avoiding the complex data and schemata that tend to overwhelm non-specialists. Special attention is given to the human experience during the war, including extensive coverage of the Holocaust, and numerous quotations from relevant primary sources are integrated throughout the narrative, bringing the events to life. The text also covers the war's lasting effects on European history as well as population transfers, the treatment of collaborators and war criminals, the ordeal of Jewish survivors, changing German responses to the Nazi era, the emergence of the Cold War, and steps toward European integration.

A Concise History of Poland Jerzy Lukowski 2019-01-31 Poland is a tenacious survivor-state: it was wiped off the map in 1795, resurrected after the First World War, apparently annihilated again in the Second, and reduced to satellite status of the Soviet Union after 1945. Yet it emerged in the vanguard of resistance to the USSR in the 1980s, albeit as a much more homogeneous entity than it had been in its multi-ethnic past. This book outlines Poland's turbulent and complex history, from its medieval Christian origins to the reassertion of that Christian and European heritage after forty-five years of communism. It describes Poland's transformation since 1989, and explains how Poland navigated its way into a new Commonwealth of Nations in the European Union. Recent years have witnessed significant changes within Poland, Eastern Europe and the wider world. This new edition reflects on these changes, and examines the current issues facing a Poland which some would accuse of being out of touch with 'European values'.

A Concise History of Germany Mary Fulbrook 2008-09-18 The multi-faceted, problematic history of the German lands has supplied material for a wide range of debates and differences of interpretation. This second edition spans the early Middle Ages to the present day, synthesizing a vast array of historical material. Mary Fulbrook explores the interrelationships between social, political and cultural factors in the light of the latest scholarly controversies. First Edition Hb (1991): 0-521-36283-0 First Edition Pb (1991): 0-521-36836-7

The Routledge History of East Central Europe Since 1700 Irina Livezeanu 2017-03-16 "Covers territory from Russia in the east to Germany and Austria in the west, exploring the origins and evolution of modernity in this region"--Provided by the publisher.

Germany, 1871-1945 Raffael Scheck 2008-11-15 At the end of the Second World War, the first unified German state collapsed, a disintegration with European and global ramifications. Ever since, historians have sought to explain what went wrong in German history. Many have focused on the violence which forged unification; others have highlighted the clash of authoritarian, anti-democratic, and anti-Semitic traditions with rapid industrialization and modernization. Germany, 1871-1945 presents a pragmatic interpretation of German history, from the unification to the end of the Nazi regime. This more open approach acknowledges the strong trend in German society towards modernization and democratization, particularly before 1914, while also highlighting the factors which propelled Germany toward World War I. The rise of the Nazis also demands a close analysis of the economic and political instability of the 1920s and early 1930s. Finally, a detailed assessment of the Third Reich explains how the regime's early successes fostered a loyalty and acceptance that remained hard to shake until disaster was obvious and unavoidable.

Nationalism in Europe 1789-1945 Timothy Baycroft 1998-10-01 This text analyzes nationalism in Europe from the French Revolution to the Second World War. Drawing on a wide range of examples, Timothy Baycroft explains what characterizes modern nations, what the theoretical roots of nationalism are, and what interaction there has been with other significant theories. The book also presents reasons for the overwhelming importance of nationalism in the development of modern European history.

Europe Since 1945 Mary Fulbrook 2001 This text brings home the waves of transformation that have washed across Europe in the second half of the 20th century, sketching out general patterns of this change, and exploring some of the local themes and variations in parts of Europe.

Support and Strike! John F. Hamlin 1991-01-01 U.S. 9th Air Force blev etableret i april 1942, deployerede til Ægypten og beyndte operationer herfra i november 1942. I forbindelse med planlægningen af Invasionen blev 9th Air Force den 16 oktober flyttet til England og deltog herfra med sine underlagte Commands, Wings, Groups og eskadriller i luftoperationerne over Europa. Forfatteren beskriver de enkelte enheder, deres placering samt lidt om operationerne.

Europe's Troubled Peace Tom Buchanan 2011-11-28 This revised second edition now extends to the end of the first decade of the twenty-first century,

covering the financial crisis and the related crisis in European integration, the impact of the “War on Terror” on Europe, and the redefinition of Europe following EU enlargement. Thoroughly revised and expanded, this integrated history of Europe now covers the end of the Second World War up to the end of the first decade of the twenty-first century. Includes new sections on immigration and ethnicity in Europe after the Cold War, and the role of historical memory in contemporary Europe. A final new chapter assesses the role of Europe within the wider world of the twenty-first century, the financial crisis and the related crisis in European integration, the impact of the “War on Terror” on Europe, and the redefinition of Europe following EU enlargement. Covers the history of central and eastern Europe in depth, as well as that of Western Europe. Discusses in detail the impact of the Cold War across the continent.

Europe Since 1945 J. Robert Wegs 2017-09-16 As Europe has expanded its influence in world economic and political affairs, there has been an increased need to understand how Europe recovered from the devastation of World War II to become a major world player. This concise history offers a comprehensive overview of Europe’s political, social, economic and cultural developments since 1945. J. Robert Wegs and Robert Ladrech balance a narrative of the major events and personalities of the post-war political scene with a critical assessment of key issues and themes, such as: - The development of the welfare state - European integration and the European Union - The Cold War - The rise and fall of the Soviet Empire - The political-economic turmoil in eastern Europe since 1989 - The place of Europe in the globalisation of the world’s political-economic affairs. The text also features further reading sections at the end of each chapter to aid more detailed study, and is enhanced throughout with tables, maps and illustrations. Written for students and general readers alike, this thoroughly revised, updated and expanded new edition is an ideal introduction for anyone with an interest in the history and politics of post-war Europe, east and west.

The World Since 1945 Keith Robbins 1998 This accessible and stimulating account of world history since 1945 provides a framework for making sense of the political and social developments of this period. The underlying theme of the book is the tension between the world conceived as a unity and the world conceived as a diversity. From this perspective, the author discusses the impulse towards globalization in the aftermath of the Second World War, the divisions inherent in the Cold War, and the shifting allegiances and conflicts in the decades which followed. He ends with an assessment of our position with regard to world unity and disunity as the millennium approaches.

A Concise History of Portugal David Birmingham 2003-11-13 This concise, illustrated history of Portugal offers an introduction to the people and culture of the country, its empire, and to its search for economic modernisation, political stability and international partnership. The book studies the effects of the vast wealth mined from Portuguese Brazil, the growth of the wine trade, and the evolution of international ties. The Portuguese Revolution of 1820 to 1851 created a liberal monarchy, but in 1910 the king was overthrown and, by 1926, had been replaced by a dictatorship. In 1975 Portugal withdrew from its African colonies and turned north to become a democratic member of the European Community in 1986. Researched during the years which followed the fall of Portugal’s dictators in 1974, this book has become the standard single-volume work. The second edition brings the story up to date and discusses the state of historical writing on Portugal at the turn of the millennium.

The Oxford History of Modern Europe T. C. W. Blanning 2000-06-28 Written by eleven contributors of international standing, this book offers a readable and authoritative account of Europe’s turbulent history from the French Revolution in the late eighteenth century to the present day. Each chapter portrays both change and continuity, revolutions and stability, and covers the political, economic, social, cultural, and military life of Europe. This book provides a better understanding of modern Europe, how it came to be what it is, and where it may be going in the future.

European Socialism William Smaldone 2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism, which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century. Striving for sweeping social, economic, cultural, and political change, socialists were a diverse lot. However, they were united by principles asserting the social and political equality of all people, ideas that won the adherence of millions and struck fear in the hearts of their numerous opponents. William Smaldone shows how, over the course of 200 years, socialists successfully promoted the democratization of European society and a more equitable division of wealth. At the same time, he illustrates how conflicts over the means of achieving their aims divided them into rival “socialist” and “communist” currents, a rift that undercut the struggle against fascism and helped lay the

groundwork for Europe's division during the Cold War. Although many predicted the demise of socialism as a potent force after the end of the Cold War, the Soviet Union's dissolution, and the rise of neo-liberal ideology, recent developments show that such a judgment was premature. The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain vibrant in the face of capitalism's failure to solve chronic social and economic problems, especially following the deep global crisis that began in 2008. Combining an analytical narrative with a selection of primary texts and visual images, this book provides undergraduate students with a brief, readable history, including an overview of how socialist political movements have evolved over time and stressing the rich diversity that has characterized socialism's foundations from its beginning. This new edition brings this text up to date and examines the European socialist movement in the face of 21st century challenges. It includes a new preface, including the 2017 American election, updated bibliographies, two new chapters and an afterword.

A Concise History of Modern Europe David S. Mason 2018-06-15 Highlighting the most important events, ideas, and individuals that shaped modern Europe, this text provides a concise history of the continent from the Enlightenment to the present day, focusing on the causes and consequences of revolution; the origins and development of human rights and democracy, and issues of European identity and integration.

A Concise History of the World Since 1945 W. M. Spellman 2020-09-16 This lively synthesis of global history since the end of World War II offers a gripping account of an interdependent world and the challenges facing individuals in the 21st century. The narrative is arranged around two key tensions: the struggle between socialism and free-market capitalism and the interaction between cultural fragmentation and the competing integrative force of globalization.

Considering the historical experience of Africa, Asia and Latin America as well as the West, it addresses the ever-expanding gulf between the developed North and developing South, and the environmental impact of development on the planet's delicate ecosystems. Authoritative and well-written, this is an ideal introductory guide for undergraduate and postgraduate students taking courses on global history since 1945. It is also a fascinating primer for anyone with an interest in global history and the issues affecting the globe today. New to this Edition: - Updated to cover events since 2006, including the conflicts in Afghanistan, Iraq and Syria, China's economic and military advance to great power status, the refugee crises and the global financial crisis of 2008 - New material on the international drugs trade, global opioid crisis and healthcare implications - Expanded material on social media - Updated material on environmental issues, considering US disengagement from traditional global partners in the area of climate change and the Trump administration's distrust of climate science and executive roll-back of established environmental laws - More social history, especially coverage of women and recent developments around issues of sexuality - Expanded section on Islam to include developments within the mainstream (as opposed to radical) tradition worldwide and current historiography

European Integration Mark Gilbert 2012 Rev. and updated ed. of: Surpassing realism: the politics of European integration since 1945. c2003.

A Concise History of Austria Steven Beller 2006 For a small, prosperous country in the middle of Europe, modern Austria has a very large and complex history, extending far beyond its current borders. In a gripping narrative supported by beautiful illustrations, Steven Beller traces the remarkable career of Austria from German borderland to successful Alpine republic.

A Concise History of Poland Jerzy Lukowski 2006-07-06 The second edition of this guide to Poland has been updated to take account of the years from 1989–2005. This period marked its liberation from the Soviet Union, the birth of Poland's 'Third Republic' and, recently, its accession to the European Union in 2004. Poland's history has been marked by its resilience. Once a dominant force in central and eastern Europe and home to a remarkable experiment in consensual politics, it was excised from the map by its neighbours in 1795. Resurrected in 1918, partitioned afresh during the Second World War, it survived to become a satellite of the Soviet Union. Yet in the 1980s, it was Poland which blazed the trail in casting off communism, and was finally able to reassert its Christian heritage. With its updated bibliography and new chronology, the book is the ideal companion for all looking for a comprehensive survey of this fascinating country.

Towards a European Constitution Michael Gehler 2005 This volume represents a historical comparison of the American and the EU European constitutional experiences and lessons to be derived therefrom for the present time. It is designed to deepen the understanding of the historical and political dimensions of

constitutional designs and practises on two continents. Hopefully, such historical depth charts will expand the horizon of debates among experts and decision-makers. The first part concentrates on the historical dimension. It deals with the experiences and perceptions of basic American political principles, developments of international and humanitarian law, and the historical dimension of constitutional debates. The second part of the book aims at culling potential lessons from the American constitutional experience and the remarkable longevity of the U.S. constitution. Additional chapters concentrate on specific aspects and elements of the European constitutional debate (courts of law, human rights, minority protections, as well as gender equality). Still other contributions focus on the historical context of the recent European Constitutional Convention. Chapters on writing a European 'bill of rights', the EU reform debates of the 1990s, and finally an analysis of the Brussels Constitutional Summit of June 2004 are also included. The spillover effects of the economic and monetary union on the constitutional debates are covered here, as well as Asian perceptions of European integration. Practitioners and scholars address in this volume historical, political and diplomatic dimensions and achievements in the process of European constitution making and its chances of success in the future. Finally, the current tensions in the Atlantic world are analysed and what they may portend for the future of European Union security options.

Britain Since 1789 Martin Pugh 1999 An "introduction to the fundamental social, political and economic changes that took place in Great Britain from the late eighteenth century to the present day."--Cover.

A Concise History of Modern Europe David S. Mason 2011-01-16 Highlighting the most important events, ideas, and individuals that shaped modern Europe, A Concise History of Modern Europe provides a readable, succinct history of the continent from the Enlightenment and the French Revolution to the present day. Avoiding a detailed, lengthy chronology, the book focuses on key events and ideas to explore the causes and consequences of revolutions—be they political, economic, or scientific; the origins and development of human rights and democracy; and issues of European identity. Any reader needing a broad overview of the sweep of European history since 1789 will find this book, published in a first edition under the title Revolutionary Europe, an engaging and cohesive narrative.

The United States and Western Europe Since 1945 Geir Lundestad 2005-08-11 Based on new and existing research by a world-class scholar, this is the first book in twenty years to examine the dynamics of the entire American-West European relationship since 1945. The relationship between the United States and Western Europe has always been crucial and recent events dictate that it is becoming ever more so. In this important new work, Geir Lundestad analyses the balance between the cooperation and conflict which has characterized this relationship in the post-war period. He examines talk of transatlantic drift, and the strain now apparent between the USA and the nation states of Western Europe. In the concluding section, Lundestad offers a topical view of the future of transatlantic interaction. Throughout the work Lundestad's much cited 'empire by invitation' thesis is both put into practice and extended in time and scope. This book is essential reading for anyone interested in one of the most important and enduring international relationships of the last sixty years.

A Concise History of European Monetary Integration Horst Ungerer 1997 Ungerer provides a comprehensive, yet concise and accessible history of European monetary integration over the past half century, from the European Payments Union (EPU) to the realization of Economic and Monetary Union (EMU) as mapped out by the Maastricht Treaty. Monetary integration is essential to the completion of a single market and the realization of and closer political cooperation in Europe. Ungerer demonstrates this point while giving readers the only up-to-date account and analysis of European monetary integration currently available. The book will be an important resource not only for scholars and students of European economic and political integration, but also for professionals in a wide range of fields within international business and finance.

The European Union Since 1945 Alasdair Blair 2014-05-12 The European Union faces a crossroads in the twenty-first century. While there is evidence of declining enthusiasm for European integration, the EU plays an increasingly vital role in tackling problems that can no longer be dealt with at member state level. In recent years, the EU has developed a stronger foreign, security and defence policy, and has had to face up to the challenges of tackling organised crime, human trafficking and drug smuggling. In this fully updated new edition, Alasdair Blair examines the economic, political, social and personal factors that have shaped the process of European integration from the end of the Second World War until the Lisbon Treaty in 2009. Written in a clear and jargon-free style, the book explores: The context of European integration and expansion The relations between the European Union and its member states The

institutional evolution of the European Union Methods of decision-making Key policies of the European Union The future direction of the European Union Comprehensive and accessible, this book is an essential guide to understanding the relevance of the European Union in the twenty-first century.

A Companion to Europe Since 1945 Klaus Larres 2014-01-28 A Companion to Europe Since 1945 provides a stimulating guide to numerous important developments which have influenced the political, economic, social, and cultural character of Europe during and since the Cold War. Includes 22 original essays by an international team of expert scholars Examines the social, intellectual, economic, cultural, and political changes that took place throughout Europe in the Cold War and Post Cold War periods Discusses a wide range of topics including the Single Market, European-American relations, family life and employment, globalization, consumption, political parties, European decolonization, European identity, security and defence policies, and Europe's fight against international terrorism Presents Europe in a broad geographical conception, to give equal weighting to developments in the Eastern and Western European states

Europe Since 1945 Bernard A. Cook 2001 Employing 286 scholars, this two volume encyclopedia contains entries on post-World War II European political history and groups, significant events and persons, the economy, religion, education, the arts, women's issues, writers, and more.

Surpassing Realism Mark Gilbert 2003 A second edition of this book is now available. This accessible text provides a concise political history of European integration from the end of World War II to the present. The "European project" raises fascinating and important questions: How did Europe's states overcome their traditional rivalries and quarrels to build supranational institutions? What were the economic and geopolitical forces that drove them? Which individual statesmen contributed most to defining the European project? What are the issues that confronted the EU in the last decade and what problems will the EU face as its leaders consider even more advanced forms of political integration? All these questions are addressed by this engaging text, which offers a clear and readable account of the complex historical process by which Europe's unique polity has been built.

The German Wars Michael Palmer 2010-11-15 The German Wars: A Concise History, 1859-1945 outlines the history of European warfare from the Wars of German Unification to the end of the World War II. The title aside, the book is not be another history of the German military; it takes a much broader approach looking at political, social, economic, and military developments across Europe, and the United States during the period. The "German War" part of the title is there because Germany plays the central part in the story. But the key element threading its way through this volume is the Industrial Revolution.

Concise Encyclopaedia Of World History Carlos Ramirez-Faria 2007 The Concise Encyclopedia Of World History Offers The Global Reading Public, Students, And Professors A Handy, Complete, And Accurate Guide To All Political Formations Since The Beginning Of History. It Reaches Into Pre-History Through The Inclusion Of The Important Families Of Languages Spoken Today. It Also Tracks Ethnic Groups, Especially Nomadic, Which Have Been Influential In The Creation Of Civilizations And States. The Entries On Existing Independent States Include Up-To-Date Political Facts And Statistics. They Mention Each Country S World Heritage Sites. To Complement The Individual Entries In This Encyclopedia, There Is An Extensive, Commentated World-Historical Chronology. A Special Feature In This Work Is The Inclusion Of Individual Political Chronologies For Ancient Civilizations And Important Countries And Regions The World Over. To Round Out This Easy-To-Consult And Thoroughly Researched Work, There Is A Cross-Referenced Index Especially Designed For Provinces, Cities, And Other Entities Which Have No Entries Of Their Own But Appear In The Entries, Sometimes Prominently, As, For Example, Abu Dhabi In The United Arab Emirates Or Amritsar In India.

A Dictionary of European History and Politics, 1945-1995 Derek W. Urwin 1996 Taking an Atlantic to the Urals view of Europe, this new dictionary is an authoritative reference on contemporary Europe, covering: individuals; events and treaties; organisations; countries and regions. The entries are concise, but in sufficient detail to provide a real understanding and insight into the events and personalities described.

World Politics Since 1945 Peter Calvocoressi 2009 First published in 1968, "World Politics since 1945" is a classic and authoritative study of contemporary political history that has helped to divert, educate, and inform two generations of political scientists, historians and general readers. The ninth edition has been expanded and updated to take into account the developments of the last 10 years, including the ugly incursions of global terrorism; the wars in Iraq, Afghanistan, and Sudan; the accelerating emergence of India and China as major powers; the major political developments in Latin America; the march of

globalisation; the expansion eastwards of the European Union; instability in the Middle East; and the vexed question of oil and energy supplies. The book has long been a staple of bookshelves and reading lists across the world, and provides a reliable and interconnected account of the great sweeps of contemporary history. Marked throughout by Calvocoressi's characteristic erudition and elegance, it will continue to be essential reading for students of international politics and for all of those who simply wish to understand better the path the world has taken since the end of the Second World War. "The book compels admiration for its thoroughness, its scope, the masterly ordering of its immense material." The Sunday Times "This is a famous book, and has been for forty years, as it has grown steadily in scope and colour. Ninety-something per cent of political commentary is cribbed and confined by a lack of historical and geographical context. Here, for once, are the dots joined, the movements explained and the details returned to the world-sized landscape." "Andrew Marr" "Peter Calvocoressi's book is an invaluable guide to global politics since the Second World War. It has reminded me of things I had forgotten and taught me things I did not know. I will be a constant user of this interesting book." "Chris Patten" "Lucid narrative, coherent structure and an enlightened liberal viewpoint." "Sir Con O'Neill," "The Observer" "This is the most lucid, comprehensive, intelligent, and reliable account of post-war modern history on the market." Teaching Politics "Peter Calvocoressi has a remarkable record of providing concise, pithy, shrewd and accessible analyses of contemporary history. World Politics demonstrates fully the range of his knowledge and the sagacity of his judgement." "Professor Sir Lawrence Freedman." About the author Peter Calvocoressi, a distinguished figure in the field of International Relations, was born in 1912 and educated at Eton and Balliol College, Oxford, where he received a First in History. He was called to the Bar in 1935. During the Second World War he worked in Ultra intelligence at Bletchley Park and later attended the Nuremberg trials. Since then he has divided his time between publishing and international affairs. In the post-war period he succeeded Arnold Toynbee as author of the annual "Survey of International Affairs." He was a partner in Chatto & Windus and the Hogarth Press and Chief Executive of Penguin Books. He has been a reader in International Affairs at the University of Sussex and has served on the Councils of the Royal Institute of International Affairs, the International Institute for Strategic Studies and Amnesty International, and on the UN Sub-Committee on Discrimination and Minorities. He has been chairman of the London Library and the Africa Bureau. In addition to this he is, of course, the author of many books, including the "Penguin History of the Second World War"; "Fall Out: World War Two and the Shaping of Post-war Europe"; "A Time for Peace"; "Top Secret Ultra," a memoir of his time at Bletchley Park; "Nuremberg: The Facts, the Law and the Consequences"; and "Threading My Way."

The Oxford Illustrated History of Modern Europe T. C. W. Blanning 2001-01-11 Written by an international team of leading scholars, The Oxford History of Modern Europe traces Europe's turbulent history, from the beginnings of the Revolution in France to the dawn of two World Wars, to the breakup of the Soviet Union, to today's kaleidoscope of nation-states. The achievements and failures of key figures from many arenas--politics, technology, warfare, religion, and the arts among them--are drawn vividly, and social, cultural, and economic insights are included alongside the record of geopolitical strife. We read of the personality cult as exemplified by the Soviet portraits glorifying Lenin; the importance of the nylon stocking in the post-World War II economic boom; the influence of religion as five new nations (Serbia, Montenegro, Bulgaria, Romania, and Albania) emerged between 1871 and 1914--an influence that continues to be both vigorous and deadly; and the confrontation between traditional and modern cultures captured as the railway age began in Russia. Beautifully illustrated with over 200 pictures in color and black and white, this insightful book offers an unparalleled, informed perspective on the history of an ever-changing continent.

A Political History of Western Europe Since 1945 Derek W. Urwin 2014-07-22 Taking a thematic approach, Derek Urwin addresses the major political and economic developments in western Europe since World War II, right up to the present day. The book covers issues and developments in national politics, and the movement towards greater unity in Western Europe and the role of Europe in global politics and in the international economy. The text has been revised throughout and updated to take account of the political consequences of the ending of the Cold War and the troubled progress of European integration since Maastricht. The Fifth Edition has lost nothing of its predecessor's clarity and accessibility and in its updated form will win the book a host of new admirers. European Colonialism since 1700 James R. Lehning 2013-08-29 This masterful synthesis provides a much-needed, complete survey of European colonialism from 1700 to decolonization in the twentieth century. Written by an award-winning author, this advanced undergraduate and graduate level textbook bridges,

for the first time, the early modern Atlantic empires and the later Asian and African empires of 'high imperialism'. Viewing colonialism as a phenomenon of contact between Europe and the rest of the world, the author takes an 'entangled histories' approach, considering the surprising ways in which the imperial powers of Spain, Portugal, Great Britain, France and the Netherlands displayed their identities in colonial settings, as much as in their imperial capitals. The author illuminates for students the common themes of colonial government, economic development and cultural contact across empires, and reveals the ways in which these themes played out, through contrast of the differing development, structure and impact of each empire.

Postwar Tony Judt 2011-01-11 FINALIST FOR THE PULITZER AWARD A magisterial and acclaimed history of post-war Europe, from Germany to Poland, from Western Europe to Eastern Europe, selected as one of New York Times Ten Best Books of the Year Europe in 1945 was drained. Much of the continent was devastated by war, mass slaughter, bombing and chaos. Large areas of Eastern Europe were falling under Soviet control, exchanging one despotism for another. Today, the Soviet Union is no more and the democracies of the European Union reach as far as the borders of Russia itself. Postwar tells the rich and complex story of how we got from there to here, demystifying Europe's recent history and identity, of what the continent is and has been. 'It is hard to imagine how a better - and more readable - history of the emergence of today's Europe from the ashes of 1945 could ever be written...All in all, a real masterpiece' Ian Kershaw, author of Hitler  
Europe since 1945 J. Robert Wegs 2007-01-26
