When Kenna Sutton is tasked with driving home newly returned Beck "True Blue" Collier, she expects the strategic Army mastermind to be a pasty number cruncher. Never at a loss for words, Kenna is nonetheless rendered speechless by the gorgeous, inexperienced and tightly-wound Army major that lands in her passenger seat. Outraged by Beck's lack of a welcome home after seven long years overseas, Kenna takes matters into her own hands, giving Beck something he's only ever fantasized about in his bunk. Beck has never shied away from a test of will and Kenna gives new meaning to the word challenge. One problem? Kenna's father is the lieutenant general presenting Beck with the Silver Star and Beck is determined to treat Kenna with the respect she deserves, even if her eyes beg Beck to act out his most secret desires with her. Desires he's always been told were the work of the devil. But how long can one lonely, starving man hope to resist the woman he craves? **OFF BASE: HUNTLEY AND CULLEN** by Sophie Jordan Being a good girl has its drawbacks... Huntley Collier, an emergency room nurse and all-around do-gooder, is tired of living in the friend zone. Cullen Brooks was given the job of babysitting Huntley when her brother—his best friend—deployed. But their friendly coffeehouse hangouts and TV marathons leave her wanting more. When one crazy night leads to too many drinks and an explosion of long-denied lust, Huntley's dreams become a reality. And reality is one hot, wild place she never wants to leave. But only a good girl can bring down a bad boy... Known as Sullen Cullen around Black Rock, Cullen Brooks doesn't have many friends, but Huntley is one of them ... and despite his decidedly unfriendly fantasies of the curvy blonde, she is far too sweet for his darker tastes. Keeping his hands off is easier said than done, however, when demure, little Huntley responds to his touch like the wildcat he never expected...and can't stop pursuing, despite his better judgment. But when Cullen suddenly faces losing her, will this bad boy risk it all to keep his good girl? **PRAISE:** "Tessa Bailey's alpha heroes will make you combust!" —Laura Kaye, New York Times Bestselling Author. Parenting Matters National Academies of Sciences, Engineering, and Medicine 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Beyond The Call Of Duty Ben Ando 2013-09-05 The book used by Thandie Newton to research her part in Line of Duty. A lone policewoman disarms a knife-wielding schizophrenic; two officers drag a woman from a railway line seconds before an express train roars past; an undercover cop clings onto the bonnet of a drug-dealer's car as it speeds through a busy town centre. These are just some of the ways Britain's police officers are daily called upon to demonstrate bravery in the line of duty when even the most routine call can turn into a life-or-death situation and split-second judgements can make all the difference. Sometimes officers make the ultimate sacrifice in fulfilling their duty. When PC Bill Parker was swept to his death by floodwaters in Cumbria in 2009, he had been working to save stranded motorists from the same fate. This thrilling collection of first-person accounts of true courage celebrates the sustained bravery and presence of mind routinely displayed by so many officers in England, Wales and Scotland. The stories also reveal an insider's view of the culture, training and techniques police officers use in carrying out their duties.

Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine 2016-12-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Risk Management and Corporate Governance 2014 This sixth peer review of the OECD Principles of Corporate Governance analyses the corporate governance framework and practices relating to corporate risk management, in the private sector and in state-owned enterprises. The review covers 26 jurisdictions and is based on a general survey of all participating jurisdictions in December 2012, as well as an in-depth review of corporate risk management in Norway, Singapore and Switzerland. The report finds that while risk-taking is a fundamental driving force in business and entrepreneurship, the cost of risk management failures is often underestimated, both externally and internally, including the cost in terms of management time needed to rectify the situation. The reports thus concludes that corporate governance should ensure that risks are understood, managed, and, when appropriate, communicated.
