main problems students from different cultural backgrounds face when getting ready to take the test. This book aims to help students deal with these problems. The first part of the book gives an overview of the speaking test and its requirements in terms of the test criteria. This section also includes information on the use of grammar and various parts of speech. The second part of the book provides topics for the three parts of the test with questions and suggestions for active practice. These topics and questions are based on actual topics and questions that appear in the IELTS Speaking Module. So how is this book different - and better - than other books on the market? First of all, it takes the user through the test and through the test criteria in greater detail than other books. It looks at problems that candidates actually have during the test. Furthermore, it provides candidates with various structured ways to create their own original answers. For each topic, for each part of the test, there are questions followed by suggestions for answer development. Of course, these suggestions are not the only ways to answer the questions, but they provide starting points for candidates who are having difficulty finding ideas. Students should, of course, aim to supplement them with others that they have learnt during their English studies.

The Perfect Guide For IELTS SPEAKING CUE CARDS Ashish Bhardwaj 2021-03-11 This book solely focuses on the Cue Card Section of the IELTS exam.

This book is divided into three sections, and each section depicts different approaches to answer the cue cards. In the first section, every topic has three answers, this section is meant to be taken as ideas only and students are advised not to cram the answers. In the second section, five questions are selected to which a single answer is provided (Yes! You can use a single answer in many situations). This section is also meant to be taken as ideas only, however, the answers are written in a story form which will help the students to form their answers in a storytelling way. In the third section, students will learn to organize their thoughts and ideas, and will also learn to craft answers to any cue card with their existing knowledge. The aim of the book is to help students who fear the speaking module of the IELTS exam. The approach used in this book is very unique and I assure you that after a thorough study of this book students will be able to speak on any topic. 60 Topics for IELTS Speaking Mark Griffiths 2013 Everything you need to know about IELTS Speaking in one book! What exactly do you have to do to get a particular band score? Which easy-to-learn words and phrases can improve your score quickly? What should you include in your answers to impress the examiner? Which aspects of grammar or pronunciation should you focus on? Anyone aiming for band 6 or higher in IELTS Speaking needs targeted practise and easy-to-follow explanations. This book - the result of years of IELTS examination experience - provides the most up-to-date information and an extensive bank of topics and questions with suggestions on how to create impressive answers that demonstrate to the examiner that your English is of a high standard. The first part of the book gives an overview of the IELTS speaking test and its requirements in terms of the test criteria. It includes sections on vocabulary, grammar and parts of speech that students can use to help them meet the requirements for a score of band 6 or above. The second part of the book provides 60 topic areas for the three parts of the test with questions and suggestions for creating individual answers and for active practice with a partner. These topics and questions are based on actual topics and questions that appear in the IELTS Speaking Module. There is, inevitably, some overlap of topic areas. However, this reflects the situation that students are likely to meet in the real IELTS speaking test. The suggestions provided with the topics and questions are not the only ways to answer the questions, but they provide starting points for candidates who are having difficulty finding ideas. Students should, of course, aim to supplement them with others that they have learnt during their English studies and with their own ideas based on their personal experiences.
