**Redback One** Robert Macklin 2014-03-25 Explosive SAS action in East Timor, Iraq and Afghanistan. The command came: 'Stop those vehicles!' It was like a red rag to a bull. Instantly streams of 7.62 mm tracer and 50 mm calibre machine gun rounds arced across the night sky and smashed into the bus and truck. Elite SAS Patrol Commander Stuart 'Nev' Bonner takes us inside the extraordinary and dangerous world of secret combat operations in this explosive, behind-the-scenes look at life inside the SAS. A world where capture means torture or death, and every move is trained for with precision detail to bring elite soldiers to the very peak of fighting ability. In a career spanning twenty years, fourteen of them in the SAS, Bonner shares with us the inside story of being out in front – and often behind enemy lines. From patrolling the mountains of East Timor to covert operations in Bougainville and the Solomon Islands, from sweeping into the Iraqi desert ahead of invading US forces to cripple Saddam Hussein's communications to patrolling in war-torn Baghdad and being in the middle of the disastrous Operation Anaconda in Afghanistan – this is a no holds barred account of what it like to live, eat and breathe SAS.

**Looking for Trouble Sir Peter De la Billière** 1995 From his childhood, rebellion at school, the early death of his father and conflict with his step-father, on to his exploits in the army in Korea, Egypt, Malaya, Oman, Borneo, the Sudan, the Falklands, and the Gulf War, this book chronicles the SAS General's life.

**Storm Front Rowland White** 2012 In early 1970, the Commanding Officer of 22 SAS flew into the strategically critical Sultanate of Oman on a covert intelligence mission. A Communist rebellion in the South threatened not only the stability of the Arabian Peninsula but more importantly the vital oil routes through the Persian Gulf.

**Eye of the Storm Peter Ratcliffe** 2014-01-13 Peter Ratcliffe served in the SAS for twenty-five years. Blooded in Oman in the 1970s, he also saw action in Northern Ireland, in the Falklands War, and in the Gulf campaign. From his early days in the Paras to his time as Regimental Sergeant-Major in the Gulf, he has lived and fought by the motto 'Who Dares Wins'. Eye of the Storm is his insider's account of that exceptional career. Fastpaced, earthy, dramatic, funny, occasionally disturbing, it is laced with firsthand descriptions of ferocious and bloody fighting, sudden death and incredible heroism, and peopled with a cast of extraordinary individuals. Beyond that, however, it corrects many of the distortions and exaggerations of other books, and explodes several long-standing myths about the Regiment. Here - at last - is the authentic voice of the SAS. This enhanced edition contains additional audio and text material: - Audio Recording of an SAS Firefight in Oman, 1973 - The Little Book of SAS by Peter Ratcliffe, an extensive glossary of SAS terms

**Transformation of War** Martin Van Creveld 2009-11-24 At a time when unprecedented change in international affairs is forcing governments, citizens, and armed forces everywhere to re-assess the question of whether military solutions to political problems are possible any longer, Martin van Creveld has written an audacious searching examination of the nature of war and of its radical transformation in our own time. For 200 years, military theory and strategy have been guided by the Clausewitzian assumption that war is rational - a reflection of national interest and an extension of politics by other means. However, van Creveld argues, the overwhelming pattern of conflict in the post-1945 world no longer yields fully to rational analysis. In fact, strategic planning based on such calculations is, and will continue to be, unrelated to current realities. Small-scale military eruptions around the globe have demonstrated new forms of warfare with a different cast of characters - guerilla armies, terrorists, and bandits - pursuing diverse goals by violent means with the most primitive to the most sophisticated weapons. Although these warriors and their tactics testify to the end of conventional war as we've known it, the public and the military in the developed world continue to contemplate organized violence as conflict between the super powers. At this moment, armed conflicts of the type van Creveld describes are occurring throughout the world. From Lebanon to Cambodia, from Sri Lanka and the Philippines to El Salvador, the Persian Gulf, and the strife-torn nations of Eastern Europe, violent confrontations confirm a new model of warfare in which tribal, ethnic, and religious factions do battle without high-tech weapons or state-supported armies and resources. This low-intensity conflict challenges existing distinctions between civilian and soldier, individual crime and organized violence, terrorism and war. In the present global atmosphere, practices that for three centuries have been considered uncivilized, such as capturing civilians or even entire communities for ransom, have begun to reappear. Pursuing bold and provocative paths of inquiry, van Creveld posits the inadequacies of our most basic ideas as to who fights wars and why and broaches the inevitability of man's need to "play" at war. In turn brilliant and infuriating, this challenge to our thinking and planning current and future military encounters is one of the most important books on war we are likely to read in our lifetime.

**Remote Control Andy McNab** 2021-01-26 Inspired by his own career as a special forces soldier, Andy McNab debuts his best-selling series with action-packed, high-octane Remote Control, a thrilling page turner you won't be able to put down featuring ex-SAS trooper Nick Stone. Tough, resourceful, ruthless - as a Special Air Service (SAS) trooper, Nick Stone was one of the best. Now he's back on the streets. After a botched mission, the Regiment no longer want his services, but British Intelligence does - as a deniable operator. It's the dirtiest job in a very, very dirty world. In Washington DC, it's about to get dirtier still. On the apparently routine tail of two terrorists, Stone discovers the bodies of an ex-SAS officer and his family. Soon he's on the run with the lone survivor of the bloodbath - a seven-year-old girl. And whilst she can identify the killers, only Stone can keep them at bay - and solve a mystery whose genesis takes him back to the most notorious SAS mission in recent history... Remote Control is the first of Andy McNab's nineteen Nick Stone thrillers - bestsellers whose landscape is so compellingly close to the truth that they had to be vetted by the Ministry of Defense, and could only be published as fiction...

**The Supreme Command Forrest C. Pogue** 1996 A description of General Eisenhower's wartime command, focusing on the general, his staff, and his superiors in London and Washington and contrasting Allied and enemy command organizations.

**Not a Good Day to Die** Sean Naylor 2006-06 At dawn on March 2, 2002, the first major battle of the 21st Century began. Over 200 soldiers of the 101st Airborne and 10th Mountain Divisions flew into Afghanistan's Shahikot valley - and into the mouth of a buzz-saw. They were about to pay a bloody price for strategic, higher-level miscalculations that underestimated the enemy's strength and willingness to fight. After the attacks of September 11, 2001, Coalition forces quickly toppled the Taliban regime from the seat of government. But, believing the war to be all but over, the Pentagon and US Central Command refused to commit the forces required to achieve total victory in Afghanistan. Instead, they delegated responsibility for fighting the war's biggest battle to a tangle of untested units thrown together at the last moment. Then the world watched as Anaconda seemed to unravel. Denied the extra infantry, artillery and close air support with which they trained to go to war, the soldiers of this airborne assault fought for survival in brutal high-altitude combat. Backed up by a small, but crucial, team of special forces, they were all that stood between the Coalition and a military disaster. Now, award-winning journalist Sean Naylor, an eyewitness to the action, vividly portrays the fight for Afghanistan's most hostile battleground and details the failures of military intelligence and planning that left victory hanging by a thread.

**Soldier Five Mike Coburn** 2004 SOLDIER FIVE is an elite soldier's memoir of his time within the Special Air Service (SAS) and, in particular, his experiences during the Gulf War. As a member of the Special Forces patrol now famously known by its call sign Bravo Two Zero, he and seven others were inserted hundreds of kilometres behind enemy lines. Their mission was to reconnoitre targets, undertake surveillance of Scud missile sites and sabotage Iraqi communications links, but was to end in desperate failure. From the outset the patrol was dogged by problems that contributed both directly and indirectly to the demise of the mission. The patrol's compromise, and subsequent attempts to evade Iraqi troops, resulted in four members of Bravo Two Zero being captured and a further three killed. One escaped. But the story goes further than the Gulf War itself. Despite numerous books, films and articles on the same subject, the British Government has done its utmost to thwart the release of Soldier Five, at one stage claiming the book in its entirety was confidential. A campaign of harassment that took some four-and-a-half years of litigation to resolve has now resulted in this explosive publication. SOLDIER FIVE is a gripping and suspenseful account of one man's experiences as a Special Forces soldier. Revealing his conflicts, loyalties and relationships forged, it is the resolution of a soldier's determined fight to see his story told.

**The Circuit Bob Shepherd** 2008 After twenty years of SAS operations Bob Shepherd retired to work as an advisor on the international commercial security circuit. Then 9/11 happened and Bob found himself back in war zones on assignments far more perilous than anything he had encountered in the SAS: from ferrying journalists across firing lines in the West Bank and Gaza to travelling to the heart of Osama bin Laden's Afghan lair. As the war on terror escalated, Bob contended with increasingly sophisticated insurgents. But the most disturbing development he witnessed was much closer to home; namely The Circuit's rise from a niche business staffed by top veterans into an unregulated, billion dollar industry that too often places profits above lives...

**The Ratline Philippe Sands** 2021 "Originally published in Great Britain in 2020 by Weidenfeld & Nicolson, an imprint of The Orion Publishing Group Ltd., London."

**David Stirling Gavin Mortimer** 2022-05-26 Aristocrat, gambler, innovator and special forces legend, the life of David Stirling should need no retelling. His formation of the Special Air Service in the summer of 1941 led to a new form of warfare and Stirling is remembered as the father of special forces soldiering. But was he really a military genius or in fact a shameless self-publicist who manipulated people, and the truth, for his own ends? In this gripping and controversial biography Gavin Mortimer analyses Stirling's complex character: the childhood speech impediment that shaped his formative years, the pressure from his overbearing mother, his fraught relationship with his brother, Bill, and the jealousy and inferiority he felt in the presence of his SAS second-in-command, the cold-blooded killer Paddy Mayne. Stirling lived until old age, receiving a knighthood and plaudits from military forces around the world before his death in 1990. Yet as Mortimer dazzlingly shows, while Stirling was instrumental in selling the SAS to Churchill and senior officers, it was Mayne who really carried the regiment in the early days. Stirling was at best an incompetent soldier and at worst a foolhardy one, who jeopardised his men's lives with careless talk and hare-brained missions. Drawing on interviews with SAS veterans who fought with Stirling and men who worked with him on his post-war projects, and examining recently declassified governments files about Stirling's involvement in Aden, Libya and GB75, Mortimer's riveting biography is incisive, bold, honest and written with his customary narrative panache. Impeccably researched and with the courage to challenge the mythical SAS 'brand', Mortimer brings to bear his unparalleled expertise as WW2's premier special forces historian to dig beneath the legend and reveal the real David Stirling, a man who dared and deceived.

**Victor Two Peter Crossland** 2014-09-24 The Israeli government was persuaded at the last minute not to enter the Gulf War when they were told that it was the SAS who were hunting for Scud missiles and disrupting Iraqi communications. The SAS forces inside Iraq comprised two half-squadrons (30 men each with vehicles) and three much smaller foot patrols, one of which had the call sign, "Bravo Two Zero". Corporal Terence Clayton, known as "Yorky", was a member of one of the half-squadrons. His group played a crucial role by destroying microwave communications lines, Scud missiles, weapons dumps and Iraqi soldiers. His 42-day story ricochets between stunning successes and extraordinary cock-ups, moving from corpse-strewn battlefields to stealthy operations at the dead of night.

**The Golem at Large Harry Collins** 2014-05-15 The authors demonstrate that the imperfections in technology are related to the uncertainties in science described in the first volume.

**The One that Got Away Chris Ryan** 1998 The British Army's SAS--the Special Air Service--is recognized as one of the world's premier special operations units. During the Gulf War, deep behind Iraqi lines, an SAS team was compromised. A fierce firefight ensued, and the eight men were forced to run for their lives. Only one, Chris Ryan, escaped capture--by walking nearly 180 miles through the desert for a week. The One That Got Away is his breathtaking story of extraordinary courage under fire, of narrow escapes, of highly trained soldiers struggling against the most adverse of conditions, and, above all, of one man's courageous refusal to lie down and die.

**Bravo Two Zero Andy McNab** 2008-10-02 In January 1991, eight members of the SAS regiment embarked upon a top secret mission that was to infiltrate them deep behind enemy lines. Under the command of Sergeant Andy McNab, they were to sever the underground communication link between Baghdad and north-west Iraq, and to seek and destroy mobile Scud launchers. Their call sign: BRAVO TWO ZERO. Each man laden with 15 stone of equipment, they patrolled 20km across flat desert to reach their objective. Within days, their location was compromised. After a fierce fire fight, they were forced to escape and evade on foot to the Syrian border. In the desperate action that followed, though stricken by hypothermia and other injuries, the patrol 'went ballistic'. Four men were captured. Three died. Only one escaped. For the survivors, however, the worst ordeals were to come. Delivered to Baghdad, they were tortured with a savagery for which not even their intensive SAS training had prepared them. Bravo Two Zero is a breathtaking account of Special Forces soldiering: a chronicle of superhuman courage, endurance and dark humour in the face of overwhelming odds.

**The Fist of God Frederick Forsyth** 2015-03-18 From the bestselling author of The Day of the Jackal, international master of intrigue Frederick Forsyth, comes a thriller that brilliantly blends fact with fiction for one of this summer's—or any season's—most explosive reads! From the behind-the-scenes decision-making of the Allies to the secret meetings of Saddam Hussein's war cabinet, from the brave American fliers running their dangerous missions over Iraq to the heroic young spy planted deep in the heart of Baghdad, Forsyth's incomparable storytelling skill keeps the suspense at a breakneck pace. Somewhere in Baghdad is the mysterious "Jericho," the traitor who is willing—for a price—to reveal what is going on in the high councils of the Iraqi dictator. But Saddam's ultimate weapon has been kept secret even from his most trusted advisers, and the nightmare scenario that haunts General Schwarzkopf and his colleagues is suddenly imminent, unless somehow, the spy can locate that weapon—The Fist of God—in time.

Peopled with vivid characters, brilliantly displaying Forsyth's incomparable, knowledge of intelligence operations and tradecraft, moving back and forth between Washington and London, Baghdad and Kuwait, desert vastnesses and city bazaars, this breathtaking novel is an utterly convincing story of what may actually have happened behind the headlines.

The Battle For Leyte Gulf [Illustrated Edition] C. Vann Woodward 2014-08-15 Includes 6 charts and 20 photos Pulitzer prize winning author C. Vann Woodward recounts the story of the largest naval battle of all time. "The Battle for Leyte Gulf was the greatest naval battle of the Second World War and the largest engagement ever fought on the high seas. It was composed of four separate yet closely interrelated actions, each of which involved forces comparable in size with those engaged in any previous battle of the Pacific War. The four battles, two of them fought simultaneously, were joined in three different bodies of water separated by as much as 500 miles. Yet all four were fought between dawn of one day and dusk of the next, and all were waged in the repulse of a single, huge Japanese operation. "They were guided by a master plan drawn up in Tokyo two months before our landing and known by the code name Sho Plan. It was a bold and complicated plan calling for reckless sacrifice and the use of cleverly conceived diversion. As an afterthought the suicidal Kamikaze campaign was inaugurated in connection with the plan. Altogether the operation was the most desperate attempted by any naval power during the war-and there were moments, several of them in fact, when it seemed to be approaching dangerously near to success. "Unlike the majority of Pacific naval battles that preceded it, the Battle of Leyte Gulf was not limited to an exchange of air strikes between widely separated carrier forces, although it involved action of that kind. It also included surface and subsurface action between virtually all types of fighting craft from motor torpedo boats to battleships, at ranges varying from point-blank to fifteen miles, with weapons ranging from machine guns to great rifles of 18-inch bore, fired "in anger" by the Japanese for the first time in this battle."

Storm Command: A Personal Account of the Gulf War (Text Only) Gen. Sir Peter de la Billiere 2012-05-31 'My primary aim in writing this book is to demonstrate the importance of individual human beings in modern warfare. In the battle to drive the Iraqi army out of Kuwait, Coalition forces used every form of high-technology weapon available; yet in the end success depended on the performance of individuals, whether they were pilots, divers, tank drivers, mechanics, engineers, cooks, radio operators, infantrymen, nurses or officers of all ranks. It was these ordinary people who, at the end of the day, were going to put their lives on the line and risk their neck when their Government decided to go to war.' Gen. Sir Peter de la Billiere Note that it has not been possible to include the same picture content that appeared in the original print version.

SAS Tracking Handbook Barry Davies 2014-08-05 Tracking originated with man's need for food; he needed to understand what he was following and what the rewards would be if he was successful. Little has changed over time about the terms of tracking. We still track game for sport and food, but we have also found other uses for tracking. Border police patrol to stop illegal immigrants from entering their country; the military tracks down wanted terrorists or enemy forces. Tracking has become a military skill. In the SAS Tracking Handbook, former SAS soldier and British Empire Medal (BEM) award-winner Barry Davies teaches not only how to survive in the outdoors with the skills of tracking, but how to use these skills from a military standpoint. Included in this book are many helpful tips on topics including: The types of dogs used for tracking. Traps for catching wild animals. Modern military tracking. Using your surroundings to your advantage. And much more. The success or failure of the modern tracker is dependent on the personal skills of the individual tracker. Training is vital in learning tracking skills, and continuous exercise the best way to interpret signs. These skills are rarely found, but they remain hidden deep within all of us. So whether you're already a skilled tracker or a novice in the field, the SAS Tracking Handbook will be your guide to mastering this old and respected art.

Immediate Action Andy McNab 2008-10-02 Immediate Action is a no-holds-barred account of an extraordinary life, from the day Andy McNab was found in a carrier bag on the steps of Guy's Hospital to the day he went to fight in the Gulf War. As a delinquent youth he kicked against society. As a young soldier he waged war against the IRA in the streets and fields of South Armagh. As a member of 22 SAS Regiment he was at the centre of covert operations for nine years - on five continents. Recounting with grim humour and in riveting, often horrifying, detail his activities in the world's most highly trained and efficient Special Forces unit, McNab sweeps us into a world of surveillance and intelligence-gathering, counter-terrorism and hostage rescue. There are casualties: the best men are so often the first to be killed, because they are in front. By turns chilling, astonishing, violent, funny and moving, this blistering first-hand account of life at the forward edge of battle confirms Andy McNab's standing in the front rank of writers on modern war.

Black Hearts Jim Frederick 2010-09-03 The best book by far about the Iraq war' Guardian Iraq, 2005. A platoon of young soldiers from a U.S. regiment known as 'the Black Heart Brigade' is deployed to a lawless and hyperviolent area south of Baghdad. As the unstoppable violence destroys their morale, the soldiers descend into brutality, substance abuse and madness - with horrific results. Black Hearts is a timeless story of how warfare can reduce men to animals. Told with insight and compassion, but with the magnetic pace of a thriller, it is one of the defining books about the Iraq War. First Into Action Duncan Falconer 2010-09-02 The SBS was first into battle a month before the SAS in the Falklands War and again in the Gulf War, yet hitherto it is the SAS that has had by far the higher profile.

The SBS draws its manpower solely from the Marine Commando Units, and the Royal Marines are the oldest and most battle-honoured regiment in the world. FIRST INTO ACTION is the first Special Boat Services memoir written from the inside. It tells how Duncan Falconer trained with the Royal Marines in Deal before being recruited into the SBS at Poole in Dorset. The regimen of ruthless training is graphically described and the book also includes revelatory accounts of SBS operations in Ulster, Bosnia and the Gulf War, and of the intense rivalry between the SAS's individualist mentality and the more team-based, marine ethos of the SBS. Duncan Falconer's grippingly detailed memoir is sure to command the attention of anyone interested in the Special Forces and how they operate.

Lucky War Richard Moody Swain 1997 Provides an account, from the point of view of the U.S. Army forces employed, of the 1990-91 Persian Gulf War, from the Iraqi invasion of Kuwait to the withdrawal of coalition forces from southeastern Iraq. It focuses on the Army's part in this war, particularly the activities of the Headquarters, Third Army, and the Army Forces Central Command (ARCENT). It looks especially at the activities of the VII Corps, which executed ARCENT's main effort in the theater ground force Schwerpunkt -- General Schwarzkopf's "Great Wheel." This is not an official history; the author speaks in his own voice and makes his own judgments. Maps.

SAS: Body Count Anthony Vincent Bruno 2021-06-02 Do unto others before they do it to you. Three disillusioned SAS Special Forces soldiers return to Britain in the aftermath of the 1991 Gulf conflict to discover an increasingly corrupt judiciary. Smirking miscreants walk free whilst the innocent suffer. Aided by a Scotland Yard informant, the trio embark on a brutal, covert crusade to rid Britain of its nefarious untouchables. Drug dealers, paedophiles and various other lawbreakers are targeted as the morgues fill and the courts empty. Detective Inspector Jim Brannigan, a former military policeman, investigates, suspecting that the deaths are linked. Divided loyalties ensue when the paroled Jamaican drug dealer responsible for the death of Jim's wife evades the justice system but not the elite soldiers now operating as vigilantes. If any of us, or our families, had suffered at the hands of terrorists, drug dealers or paedophiles - would we not demand justice? Especially if the offenders had walked free from court on a technicality. In the case of this book, and its sequel, justice is often lethal and barbaric, carried out by demobbed Special Forces soldiers. Not for the politically correct though even they might say that SAS: Body Count is wonderful and wishful thinking. Hollywood is certain to come knocking for this book - Ray Hoy (The Fiction Works) Unputdownable! Cornerstones Agency. Superbly written book that I just could not put down. The story kept me hooked from beginning to end, Looking forward to part two - Kevin Paul Rich. I'm sure most of us have ranted at soft justice. I certainly have but none of that in this book!! Full of suspense and very well written by a clever author. Very graphic violence so be warned about that. I enjoyed this - Paula Potter.
