A Practitioner's Guide to Ethical Decision Making

1. Identify the Problem. Gather as much information as you can that will illuminate the situation. In doing so, it is important to be as specific and objective as possible. Writing ideas on paper may help you gain clarity. Outline the facts, separating out innuendos, assumptions, hypotheses, or suspicions. There are several questions you can ask

Introduction to English Tort Law - International and Comparative ...

1 Introduction to English Tort Law The legal system operating in England and Wales is a common law system of law. The essential difference between a common law system and a civil law system (the predominant legal system in Europe) is that in the former judicial decisions are binding both on lower courts and on the court that has made the decision.

Language Models are Unsupervised Multitask Learners - OpenAI

$i=1 p(s_{n_1}; \dots; s_{n-1})$ (1) This approach allows for tractable sampling from and estimation of $p(x)$ as well as any conditionals of the form $p(s_{n_k}; \dots; s_{n_{j-1}}; \dots; s_{n_k-1})$. In recent years, there have been significant improvements in the expressiveness of models that can compute these conditional probabilities, such as

Sequence to Sequence Learning with Neural Networks

In this paper, we present a general end-to-end approach to sequence ... achieve a BLEU score of 34.8 on the entire test set, where the LSTM's BLEU score was penalized on out-of-vocabulary words. Additionally, the LSTM did not ... source sentences, the translation objective encourages the LSTM to find sentence representations

Prospect Theory: An Analysis of Decision under Risk - JSTOR

This paper presents a critique of expected utility theory as a descriptive model of decision making under risk, and develops an alternative model, called prospect theory. Choices among risky prospects exhibit several pervasive effects that are inconsistent with the basic tenets of utility theory. In particular, people underweight outcomes that are

Outcomes Placement Test 1 - Cengage

The test administrator should read the instructions aloud and make sure that students know where and how to record their answers (for instance, whether to mark their answers on the question paper or to use the Student Answer Sheet). Students should then be given 30 minutes to complete the written portion (items 1-50) of the Placement Test. Scoring

Language Models are Unsupervised Multitask Learners

$i=1 p(s_{n_1}; \dots; s_{n-1})$ (1) This approach allows for tractable sampling from and estimation of $p(x)$ as well as any conditionals of the form $p(s_{n_k}; \dots; s_{n_{j-1}}; \dots; s_{n_k-1})$. In recent years, there have been significant improvements in the expressiveness of models that can compute these conditional probabilities, such as

American Statistical Association Releases Statement on Statistical ...

1. P-values can indicate how incompatible the data are with a specified statistical model. 2. P-values do not measure the probability that the studied hypothesis is true, or the probability that the data were produced by random chance alone. 3. Scientific conclusions and business or policy decisions should not be based only on

MBTI Personality Type Test - Maximus Veritas

The following test is designed to measure your MBTI Personality type. We will be discussing the theory behind this test, and the results it demonstrates, during the session on "Leadership and Personality Types" during the second day of the conference. The session will be much more valuable to you if you have completed this test PRIOR to the

EXPERIMENT 11: Qualitative Analysis of Cations - Houston Community College

Obtain 1 mL (20 drops) samples of 0.5 M solutions of the salts AgNO_3 , $\text{Pb}(\text{NO}_3)_2$, and $\text{Hg}_2(\text{NO}_3)_2$ as mixtures of Ag^+ , Pb^{2+} , and Hg_2^{2+} ions respectively in three separate clean, labeled vials or small test tubes. These will be your 'Test Solutions'. Identify the formulas and charges for the cations on your paper such as Ag^+ , Pb^{2+} , and Hg_2^{2+} ...

To Kill A Mockingbird - Raio

Chapter 1 When he was nearly thirteen, my brother Jem got his arm badly broken at the elbow. When it healed, and Jem's fears of never being able to play football were assuaged, he was seldom self-conscious about his injury. His left arm was somewhat shorter than his right; when he stood or walked, the back of his hand

Prospect Theory: An Analysis of Decision under Risk

+ $p_n = 1$. To simplify notation, we omit null outcomes and use (x, p) to denote the prospect $(x, p; 0, 1-p)$ that yields x with probability p and 0 with probability $1-p$. The (riskless) prospect that yields x with certainty is denoted by (x) . The present discussion is restricted to prospects with so-called objective or standard probabilities.
