[The Crystal Cave](#) Mary Stewart 2012-02-02 This is what happened. I saw it, and it is a true tale. So begins the story of Merlin, born the illegitimate son of a Welsh princess in fifth century Britain, a world ravaged by war. Small and neglected, with his mother unwilling to reveal his father's identity, Merlin must disguise his intelligence - and hide his occasional ability to know things before they happen - in order to keep himself safe. One beautiful afternoon, while exploring the countryside near his home, Merlin stumbles across a cave filled with books and papers and hiding a room lined with crystals. It is the home of Galapas, who becomes Merlin's tutor and friend, and who teaches Merlin to understand the world around him... and to harness the power of the crystal cave to see the future. Merlin will rise to power and enter history - and legend - as advisor to King Arthur. But all stories must begin somewhere. And this is his. The Crystal Cave is the first of Mary Stewart's brilliant Arthurian Saga, telling the story of King Arthur from the perspective of the extraordinary, mysterious Merlin.

[Silk and Potatoes](#) Adam Roberts 2022-06-08 This study constitutes the first to analyse the remarkable surge in popularity of Arthurian literature and art in the modern period from a broad range of instances of cultural production. More novels with Arthurian themes have been published since the war than in any previous period, and [Silk and Potatoes](#) provides detailed readings of some of the most famous, including works by Marion Zimmer Bradley, Anthony Burgess, C.J. Cherryh, Guy Gavriel Kay, Mary Stewart, Jack Vance and T.H. White. In addition to examining Arthurian fiction (with chapters on the general novel, Historical fiction and Science Fiction), this study examines the key cinematic examples of Arthuriana (Boorman's [Excalibur](#), Bresson's [Lancelot du Lac](#), Rohmer's [Perceval Le Gallois](#) and Monthy Python and the Holy Grail). A further chapter goes on to look at the myriad other forms of cultural production based on Arthurian themes; from [Bugs Bunny](#) to [Pop Music](#), from the Camelot of JFK to the British National Lottery. This is a study that touches on many aspects of Arthuriana whilst developing two connected arguments about (on the one hand) the necessary anachronism of any modern Arthurian Literature, and (on the other) the aesthetic-political implications of this literature's success. The whole, whilst rooted in the scholarly debates on the enduring appeal of King Arthur, is written in an accessible and entertaining style. It will be of interest to students and teachers of Arthurian literature, film and popular culture.

[The Chronicles of All-Time: Dr. Jurgen Vanhauwe](#) 2014-11-22 The Chronicles of All-Time is a series of books that describe the nature of time, space and reality with a central storyline, the life of Dr. Elliott Himmerept. Very much like the best-seller book "Life of Pi", this book describes the amazing awakening story of Dr. Himmerept, which is an alias for the author, Dr. Jurgen Vanhauwe. Through his visits to Heaven, which are described in this first book, and many strange occurrences in his perceptual reality, a multi-cultural and intergalactic story starts to develop. The entire series will help young and adult readers understand the nature of our Universe and the multi-faceted role that we play during our human life experience. While the setting and the story telling is meant to be science fiction, it is up to the reader to discern what parts of the book may have been taken from the real life experience of Dr. Jurgen Vanhauwe and what parts are science fiction. Or maybe all of it is what truly transpired? The first book in this series focuses on the remembrance of who we truly are as humans, and the main character's journey to openness and acceptance that life is more than it seems through our five senses. With

insights from our distant past and futures, it becomes clear that we are not alone in this Universe and that we are part of a much larger living entity. This book will help you re-evaluate what is possible and what is real or not.
