In Abor Jungles Angus Hamilton 2012-03-29 A full and comprehensive account of a classic punitive expedition to subdue and settle three tribes - the Abors, the Mishmis and the Miris - in and around Aborland on the frontiers of Assam and China in British-ruled India. The 1911 Abor Expedition under Major-General Hamilton Bower was carried out to punish the perpetrators of a massacre of a British colonial official, a doctor and their coolies in March that year. After some fighting and burning of villages, the murderers were caught, the tribal chiefs - 'Gams' - submitted to the British Raj, and their tribal centres were destroyed. The author - a Fellow of the Royal Geographical Society - gives a full account of the episode, together with interesting anthropological descriptions of the tribes and their customs - including the 'ring of love' and their habit of using teacups as earrings. The book is well illustrated with more than seventy photographs and a map of the expedition drawn by the author.

Born in the Jungles of Burma Andrew Wax 2010-08-11 This researcher examined the evolution of warfare in an

unforgiving environment, necessitating an innovative method of warfare never attempted on a large scale. It details the early history of air supply and support near the end of WWI up to and including the war in Europe in 1939 and the expanding war in Asia following the December 1941 Japanese attack on Pearl Harbor and subsequent offensives in southeast Asia. The China-Burma-India Theater (CBI) became an important component of Allied efforts. Low in Allied priority, the difficulties encountered by the Southeast Asia Command (SEAC) increased. Burma, a British colony, was a region with few all-weather roads; the only rail lines available were in enemy hands 150 miles inside Japanese lines. Temperatures reached 110 degrees Fahrenheit with rainfall as much as 200 inches per year. Additionally, the nearest friendly seaport was more than 500 miles away. The Allied offensive, scheduled for the spring of 1944, incorporated a multi-pronged ground attack on three different Japanese fronts. To achieve success, it was essential to develop the only logical means of sustainability for ground forces: Air Supply and Support. Described herein are the efforts of the United States Army Air Forces (USAAF) and the Royal Air Force (RAF), creating a singularly unique air unit: Air Commando 1. The coordination of Allied tactics and doctrines were worked out with a clear delineation of the chain of command. When Air Commando 1 arrived in India, the framework that became the Allied offensive, codenamed "Operation THURSDAY" was laid. For the survival of soldiers contracting one of the numerous diseases (Burma has the largest number of snakes per square mile) or suffering from combat related wounds and injuries, it was essential to receive quick medical attention. It was in the CBI that SEAC established an effective method of air evacuation that made the difference between life and death. The research unearthed most of the heretofore publicly unknown aspects of the campaign, explored in the author's thesis, which indicate that the first sustained effort of air supply and support deep within enemy-held territory established a vital method of warfare deployed in subsequent wars.

The Jungle Upton Sinclair 2010-08-19 A searing novel of social realism, Upton Sinclair's *The Jungle* follows the fortunes of Jurgis Rudkus, an immigrant who finds in the stockyards of turn-of-the-century Chicago a ruthless system that degrades and impoverishes him, and an industry whose filthy practices contaminate the meat it processes. From the stench of the killing-beds to the horrors of the fertilizer-works, the appalling conditions in which Jurgis works are described in intense detail by an author bent on social reform. So powerful was the book's message that it caught the eye of President Theodore Roosevelt and led to changes to the food hygiene laws. In his Introduction to this new edition, Russ Castronovo highlights the aesthetic concerns that were central to Sinclair's

aspirations, examining the relationship between history and historical fiction, and between the documentary impulse and literary narrative. As he examines the book's disputed status as novel (it is propaganda or literature?), he reveals why Sinclair's message-driven fiction has relevance to literary and historical matters today, now more than a hundred years after the novel first appeared in print.

From the Jungles to the Cathedrals Juan Carlos Ortiz 2011-08-09 Dr. Juan Carlos Ortiz narrates the story of how he went from the jungles to the cathedrals. Through the pages of this book, he leads the reader on his journey from his humble beginnings with an alcoholic father, to when Jesus, in the form of two missionaries, transformed his life. In spite of his mother's resistance to waste any time on "nonsense", their persistence to share the good news of the gospel paid off. They spoke the words her broken heart longed to hear. Jesus became their provider, their comforter, their joy. Although his mother couldn't meet all their needs through her work, supernaturally they always had enough. The impossibility of him and his siblings to attend school was suddenly a possibility. As a young man, Dr. Ortiz feels the need to serve the One who changed their lives. He enters into the seminary beginning his journey into the ministry. Along the way he is influenced by great international leaders like Tommy Hicks, who leave a lasting impression on his life. Soon after, he becomes pastor of the Crystal Cathedral in California, one of the most important churches in the United States.

From the Plains of Africa to the Jungles of Parliament Barry Turner 2012-11-01 In the first part of the book, the author regales us with real-life adventures as a Game Warden in the Mkomazi Game Reserve in Northern Tanzania. The work chronicles encounters with such luminaries as Patrick Hemingway and the President of Tanzania. The book takes you on journeys on Mount Kilimanjaro, through the Serengeti Migration and hunting and conservation experiences with and for Africa's great animals. The second part of this autobiography deals with

Turner's exciting life in Canadian politics where he was elected as a Progressive Conservative Member of Parliament. You will read about his encounters in this "jungle" with such historical figures as Gorbachev, Sir Edmund Hillary and many other iconic personalities.

Dancing with the Dinosaur William Lareau 1994 The purpose of this book is to present you with a new perspective about work and business -- new behaviors, new expectations, new theories. In order to do this, it is necessary to disrupt and challenge the strongly ingrained but outmoded and ridiculous assumptions that you've been taught about business by well-meaning parents, teachers, and by society. An important element of this book's strategy for challenging the old and teaching the new is to create and place you in a make-believe business jungle, replete with dinosaurs. This jungle and its dinosaurs are metaphors for the normal business world and the people who work in it. In order to strengthen the impact, all the dinosaurs are given special names. At first these names will seem strange and difficult to pronounce. Very quickly though, the names will become familiar and even endearing as you begin to internalize the concepts.

The Jungles of Arkansas Bob Lancaster 1989-07-01 When H. L. Mencken wrote about "the miasmatic jungles of Arkansas," he was referring to the relative obscurity and uncertain image that Arkansas has enjoyed—or suffered from—throughout its history. In these entertaining and sometimes quirky essays, Lancaster sheds light on that image by analyzing the stereotypes that have characterized the state since its very beginning.

In Green's Jungles Gene Wolfe 2007-04-01 Gene Wolfe's In Green's Jungles is the second volume, after On Blue's Waters, of his ambitious SF trilogy, The Book of the Short Sun. It is again narrated by Horn, who has embarked on a quest from his home on the planet Blue in search of the heroic leader Patera Silk. Now Horn's identity has become ambiguous, a complex question embedded in the story, whose telling is itself complex, shifting from place to place, present to past. Horn recalls visiting the Whorl, the enormous spacecraft in orbit that brought the settlers from Urth, and going thence to the planet Green, home of the blood-drinking alien inhum. There, he led a band of mercenary soldiers, answered to the name of Rajan, and later became the ruler of a city state. He has also encountered the mysterious aliens, the Neighbors, who once inhabited both Blue and Green. He remembers a visit to Nessus, on Urth. At some point, he died. His personality now seemingly inhabits a different body, so that even his sons do not recognize him. And people mistake him for Silk, to whom he now bears a remarkable resemblance. In Green's Jungles is Wolfe's major new fiction, The Book of the Short Sun, building toward a strange and seductive climax. "Wolfe's narrative glows, rich and seductive as ever."--Kirkus Reviews At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Malayan Emergency & Indonesian Confrontation Robert Jackson 2011-05-18 The struggle with Communist terrorists in Malaya known as The Emergency became a textbook example of how to fight a guerrilla war, based on political as much as military means. This book deals with both the campaign fought by British, Commonwealth and other security forces in Malaya against Communist insurgents, between 1948 and 1960, and also the security action in North Borneo during the period of Confrontation with Indonesia from 1962 to 1966. Both campaigns provided invaluable experience in the development of anti-guerrilla tactics, and are relevant to the conduct of similar actions which have been fought against insurgent elements since then. The book written with the full co-operation of various departments of the UK Ministry of Defence contains material that until recently remained classified. This is the first full study to cover the role of airpower in these conflicts. It will be of relevance to students at military colleges, and those studying military history, as well as having a more general appeal, particularly to those servicemen and women who were involved in both campaigns.

The Jungle Grows Back Robert Kagan 2019-08-06 A brilliant and visionary argument for America's role as an enforcer of peace and order throughout the world—and what is likely to happen if we withdraw and focus our attention inward. Recent years have brought deeply disturbing developments around the globe. American sentiment seems to be leaning increasingly toward withdrawal in the face of such disarray. In this powerful, urgent essay, Robert Kagan elucidates the reasons why American withdrawal would be the worst possible response, based as it is on a fundamental and dangerous misreading of the world. Like a jungle that keeps growing back after being cut down, the world has always been full of dangerous actors who, left unchecked, possess the desire and ability to make things worse. Kagan makes clear how the “realist” impulse to recognize our limitations and focus on our failures misunderstands the essential role America has played for decades in keeping the world's worst instability in check. A true realism, he argues, is based on the understanding that the historical norm has always been toward chaos—that the jungle will grow back, if we let it.

Cops, Jungles, and Santa Claus Larry D. Flora 2008-04 Deep within the Langerhorne Mountains on the continually dark side of planet Xirca, a cave-dwelling civilization carries on their daily routines. They are unaware that life beyond the cave entrance exists and are forced to serve a ruler who keeps them there for his own purposes. When a fifteen-year old boy is framed for the murder of his best friend, he is forced to leave the safety of his cave-home to venture into the uninhabitable snow-covered mountains. Armed with a sword, a hunter's specialized gliding cloak, knee-slides, and the ability to glide through the air, Brody takes on the unknown. Eventually, he is led by a pair of strangers to a nearby community where he contemplates his situation. When he is ready to rally troops and return to the mountain to set things right with the evil dictator that he once served, events don't exactly unfold as expected. While developing and executing his plan, he is involved with a professional sport competition, the flying mountain cats of the king's army, a motorized six-wheeled sandscooter, and a colorful character who may hold the answer to his problem. On a planet where creatures and cultures are different than ours, love and loss, loyalty and betrayal,

are still powerful motivators.

The Jungle Books Rudyard Kipling 2014-09-08 Rudyard Kipling was born in India in 1865 and spent his early years reveling in the country's exotic delights. At five he was sent to school in England, and did not return until 1882, when he worked as a reporter on the 'Civil and Military Gazette'. A prolific writer, he soon became famous for a prodigious range of tales and poems, from the high adventure of 'The Man Who Would Be King', through the gritty doggerel of 'Barrack Room Ballads' to charming children's stories such as 'Puck of Pook's Hill' and, perhaps his most celebrated offering, 'The Jungle Book'. Although it includes such famous tales as 'Rikki-Tikki-Tavi' The Jungle Book's true hero is Mowgli, a young boy raised with wolves, and hunted by the evil tiger Shere Khan. All is well until the realization dawns in Mowgli that he is human - knowledge he tries to repress as he is appalled by humankind's greed and destructiveness. Through a series of perils and adventures, Mowgli gradually comes to terms with the animal and human facets of his life. Like all good children's stories, these tales have a depth of allegory and symbolism that allows them to be enjoyed by adults as well as children. 'The Jungle Book' is a work that can be read throughout a lifetime - one that will bring pleasure and further insights at each reading.

Kabini And The Jungle Stories AK SINGH 2022-08-02 At the turn of the 19th century in India, more than a million wild animals were trounced under the barrel of the gun, bringing them almost to the brink of extinction. There began one of the most inspirational stories of the crusade from Karapure village at the Kabini river of Mysore in South India. An innovative style of protecting nature gives immense importance to the preservation of wilderness, changing the lives of the aborigines through an instrument of eco-tourism. The book charts the key moments in the fight to conserve the natural wealth of India, which has been the centre of admiration for maharajas, the cynosure of the eyes of all royal princes, eminent military officials and those who set on foot to India during the medieval period, embarking on a journey of incredible stories of wildlife sports such as hunting and shooting. The chronicle gives a fascinating picture of the success story of eco-tourism in Karnataka. It offers an atmospheric and entertaining account of the lives of Indian princes, early lifestyles of viceroys, kings, czars and sovereign monarchs with joyful hunting expeditions of emperors, maharajas and enjoyable sports of diplomats and bloodhound hunters, the British civil servants. In a most vivid and gripping style, the saga records the life of men who lived in the wilderness amidst tribes and aborigines and made them friends, which spread the message of the benevolence of human relationships, love and a deep affection for nature and natural resources. It is a captivating book packed with

splendid quotes, entertaining anecdotes, chronicles of pre-independent, innovative, triumphant trials of Khedda operations in the princely states of Mysore and Hyderabad, absorbing tales of the wildlife of India and her natural splendours across the cultural diversity of various tribes, ethnicities and their virtues, beliefs and ethos. The Routledge Dictionary of Modern American Slang and Unconventional English Eric Partridge 2009 Includes words and phrases from United States history and from such current subcultures as technology and the Internet, the media, recent immigrants, and fashion.
