Streets Is Watching, The Rise Of The Drug Epidemic Anthony Watson 2020-12-31 Look at the world around you. Every second is detrimental towards what I'm about to tell you. Never, I mean never lose sight of the game. The game was given its name for a reason, and if you have a sound mind you know that reason. It takes a player to play, and most of the players most of time, play by the rules. You see, in the game you always end up in compromising situations, sometimes even fatal. That's when the players stop playing by the rules, and if you not smart enough or ruthless enough, you get played. But what exactly are you gearing that ambition towards? Time is precious and the dollar bill is powerful. It's so powerful that printed on blood money, all money, is the words, "In God We Trust". Somewhere in your mind's eye you trust that dollar bill will one day get you that car you desire. Maybe you want that iced out Rolex you over heard gold digging Trina talking about. Maybe you're just jealous because Trina don't associate herself with low ballers. Never let money be the ultimate cause for your actions. Never let your left hand know what the right is doing. Most importantly always remember, the streets is watching.

Stopping the Train Gracie Stella Cook 2019-09-12 October 2, 2018. Mr. Collier, do you know of any reason why Sam would have your name, address and phone number, printed by hand on a piece of paper he carried in his wallet? His name was Sam Train. He was an ex rock singer, sometimes film producer and full-time party-going bachelor playboy. And right now, in Room 120 of a cheap motel off a southern California highway, he was dead at sixty-three. In the 1980's they belonged to a southern California band called Wild Wahoonies. All but one of them came from privileged families; the bass player was an indigenous fisherman from New South Wales. They wrote one hit song and had three groupie girls dancing onstage, one who sang backup with the band. By the time they were finding their audience, a disastrous unforeseen event broke up the band. Through the years they stayed close, one moved to Seattle, one drifted in and out of the lives of the others, most lived and played in Malibu. Over decades of joy and turbulence, shared or concealed, none of them completely broke free of the others. October 3, 2018. Sam Train? Never! I don't believe it, Lyle. Do you? Does Phyllis? After all that drama with Elvie and everything, and Sam's the one who does himself in? How did Sam die? He was found shot in the head inside a locked motel room. We're waiting for the coroner's report. October 19, 2018. Phyllis Train was burying a son today. Of her surroundings and companions, only the California sun chose not to care. October 4, 2018. Meeting those beautiful leonine eyes with his, he told her. She put both hands around her glass and looked down into her drink. Why? she asked. There it was. The unanswerable question.

Applied Photographic Optics Sidney Ray 2002-02-20 Selected by the American Library Association's 'Choice' magazine as "best technical book", the first edition of this book soon established itself as the standard reference work on all aspects of photographic lenses and associated optical systems. This is unsurprising, as Sidney Ray provides a complete, comprehensive reference source for anyone wanting information on photographic lenses, from the student to the practitioner or specialist working with visual and digital media worldwide. This third edition has been fully revised and expanded to include the rapid progress in the last decade in optical technology and advances in relevant electronic and digital forms of imaging. Every chapter has been revised and expanded using new figures and photographs as appropriate, as well as extended bibliographies. New chapters include details of filters, measurements from images and the optical systems of digital cameras. Details of electronic and digital imaging have been integrated throughout. More information is given on topics such as aspherics, diffractive optics, ED glasses, image stabilization, optical technology, video projection and new types of lenses. A selection of the contents includes chapters on: optical theory, aberrations, auto focus, lens testing, depth of field, development of photographic lenses, general properties of lenses, wide-angle lenses, telephoto lenses, video lenses, viewfinder systems, camera movements, projection systems and 3-D systems.

Omaha Impressions 2008-03 Whye presents 112 full-color photographs of this bustling city nestled in the heartland of America. The images convey Omaha's unmistakable cityscapes, large and small, as well as the surrounding fertile agricultural lands. Old-timers and newcomers will see Omaha in original ways, as Whye's photographs convey clear impressions of distinct neighborhoods, public spaces, and fabulous architecture found throughout the city. Festively lit downtown street scenes are counterbalanced by tranquil farmlands. Stunning sunsets share the pages with rich interiors. Photos of throngs of happy, celebrating Omahans are offset by close-ups of the serene greenery found in a quiet nature preserve. A warm, lively foreword by the photographer sets the stage. Informative captions complement the photographs throughout the book, providing enough detail that even casual readers will learn something of Omaha's fascinating history and contemporary culture while simply browsing through the photos. Omaha Impressions is a bright, inclusive, and affectionate tribute to the city. Visitors and locals alike will cherish this fine book of photography.

A New Hasidism: Roots Arthur Green 2019-10 Neo-Hasidism applies the Hasidic masters' spiritual insights—of God's presence everywhere, of seeking the magnificent within the everyday, in doing all things with love and joy, uplifting all of life to become a vehicle of God's service—to contemporary Judaism, as practiced by men and women who do not live within the strictly bounded world of the Hasidic community. This first-ever anthology of Neo-Hasidic philosophy brings together the writings of its progenitors: five great twentieth-century European and American Jewish thinkers—Hillel Zeitlin, Martin Buber, Abraham Joshua Heschel, Shlomo Carlebach, and Zalman Schachter-Shalomi—plus a young Arthur Green. The thinkers reflect on the inner life of the individual and their dreams of creating a Neo-Hasidic spiritual community. The editors' introductions and notes analyze each thinker's contributions to Neo-Hasidic thought and influence on the movement. Zeitlin and Buber initiated a renewal of Hasidism for the modern world; Heschel's work is quietly infused with Neo-Hasidic thought; Carlebach and Schachter-Shalomi re-created Neo-Hasidism for American Jews in the 1960s; and Green is the first American-born Jewish thinker fully identified with the movement. Previously unpublished materials by Carlebach and Schachter-Shalomi include an interview with Schachter-Shalomi about his decision to leave Chabad-Lubavitch and embark on his own Neo-Hasidic path.

Stories From A Farm In Brooklyn Harold Geller 2018-08-09 This is a story about a family who started their American dream on a farm in Brooklyn, New York. The author recounts his family's start in America, as best as he can construct it. He continues examining his family's story through the World War II era. This was a period of great change in the Geller family. At the end of World War II, the Geller family farm was turned into a gas station. The author's father bought a home a few miles away from the original Geller family farm when the author himself was born. After a few jobs, the author describes his experiences in academia; specifically at George Mason University, in Fairfax, Virginia. During his stint at George Mason University, the author served in numerous capacities at the university, concluding with the observatory director. The author's life was then focused on his brother, who fought a losing battle with metastasized malignant melanoma. Life's lessons are highlighted in the author's review of his family's life and times.

Greek Tragedies 1 Mark Griffith 2013-04-19 Greek Tragedies, Volume I contains Aeschylus's "Agamemnon," translated by Richmond Lattimore; Aeschylus's "Prometheus Bound," translated by David Grene; Sophocles's "Oedipus the King," translated by David Grene; Sophocles's "Antigone," translated by Elizabeth Wyckoff; and Euripides's "Hippolytus," translated by David Grene. Sixty years ago, the University of Chicago Press undertook a momentous project: a new translation of the Greek tragedies that would be the ultimate resource for teachers, students, and readers. They succeeded. Under the expert management of eminent classicists David Grene and Richmond Lattimore, those translations combined accuracy, poetic immediacy, and clarity of presentation to render the surviving masterpieces of Aeschylus, Sophocles, and Euripides in an English so lively and compelling that they remain the standard translations. Today, Chicago is taking pains to ensure that our Greek tragedies remain the leading English-language versions throughout the twenty-first century. In this highly anticipated third edition, Mark Griffith and Glenn W. Most have carefully updated the translations to bring them even closer to the ancient Greek while retaining the vibrancy for which our English versions are famous. This edition also includes brand-new translations of Euripides' Medea, The Children of Heracles, Andromache, and Iphigenia among the Taurians, fragments of lost plays by Aeschylus, and the surviving portion of Sophocles's satyr-drama The Trackers. New introductions for each play offer essential information about its first production, plot, and reception in antiquity and beyond. In addition, each volume includes an introduction to the life and work of its tragedian, as well as notes addressing textual uncertainties and a glossary of names and places mentioned in the plays. In addition to the new content, the volumes have been reorganized both within and between volumes to reflect the most up-to-date scholarship on the order in which the plays were originally written. The result is a set of handsome paperbacks destined to introduce new generations of readers to these foundational works of Western drama, art, and life.

Everbound Brodi Ashton 2013-02-14 It's been two months since the dark tunnels of the underworld came for Nikki Beckett. That night, Nikki's boyfriend, Jack, made the ultimate sacrifice and took her place in the Everneath for eternity - a debt that should have been hers. Every night Jack appears in her dreams, lost and confused, and wasting away. All Nikki wants is to save him before it's too late, but no matter how hard she tries to reach for his hand, she can never find it. Desperate for answers, Nikki turns to Cole, the immortal bad boy who wants to make her his Queen - and the one person least likely to help. But it seems Nikki has touched his heart, and surprisingly, Cole agrees to help in the only way he can - by taking Nikki to the Everneath himself. As they descend into the heart of the Everneath Nikki and Cole discover that their journey will be more difficult than they'd anticipated, and more deadly. Nikki vows to stop at nothing to save Jack - even if it means making an incredible sacrifice of her own...

States' Rights and the Role of the Federal Government Marcia Amidon Lusted 2018-07-15 The balance of power between states and the federal government has long been a point of contention. In an era when one political party controls the three branches of the federal government, the possibility to employ states' rights to resist objectionable federal policy has made it a highly contemporary issue. With states' rights at the center of issues like sanctuary cities, abortion, gun control, and LGBTQ rights, understanding the distribution of power between state and federal government is key to grasping the current political climate and the future of American politics.
